WASHINGTON AND OTHER EARLY AMERICAN MEDALS

LOTS 323 TO 964 TO BE SOLD AT PUBLIC AUCTION
PROMPTLY AT 1:30 P.M., APRIL 14, 1951

The following selection of early and choice Americana is but a continuation of the fine collection initially offered in our January 20th sale. Those who cannot obtain a copy of Baker's momentous work on Washington Medals should refer to The Early Medals of Washington, 1776-1834, compiled and published by Wayte Raymond, New York. We can supply copies of this invaluable pamphlet for 50c (postage extra). The standard work on the subject of early American medals is American Colonial History, Illustrated by Contemporary Medals, by C. W. Betts, New York, 1893. This book, when available, usually sells for \$7.50 to \$10.00 and is quite scarce.

- 323 **REPUBLIC AMERICAN MEDAL 1796.** Obv. Bust in civil dress to right. On edge of shoulder—WYON. Rev. Cannon, fasces and caduceus behind scroll inscribed REPUBLIC AMERICAN. Size 21. Bronze. Raymond No. 5, Baker No. 68. Ex. Fine. Dolton and Hamer in their splendid work on British tokens include this piece as an eighteenth century penny. As such, it should be listed in the Standard Catalog as an American colonial. V. Scarce.

- 324 REPUB. AMERI. MEDAL. Obv. Same as preceding except dates of birth and death below. Rev. Identical to preceding. Size 21. Tin. R. No. 6, B. No. 69. Choice Proof impression. Much more difficult to obtain than an impression in Bronze. The same remarks following the last lot apply to this piece.
- 325 THE SANSOM MEDAL. Obv. Bust facing right. Rev. Weapons and shield on pedestal. From dies cut at the U.S. Mint. An early impression on a thin planchet struck in light bronze. Size 26. R. No. 18, B. No. 72. A splendid Proof impression. Actually Very Scarce in comparison with the following lot.
- 326 THE SANSOM MEDAL. As last, from dies cut in the U.S. Mint. Struck about 1859, on a heavy planchet and bronzed. Size 26. R. No. 18, B. No. 72. Ex. Fine.
- 327 THE HALLIDAY MEDAL. Obv. Bust in civil dress to right. HALLIDAY. S. on the edge of shoulder. Rev. Same type as Sansom medal. In fact, all three varieties of the Sansom medals were copied from this design. Size 34. R. No. 20, B. No. 70. Struck in Tin and as such of great rarity. Ex. Fine with the reverse showing a few minor imperfections due to handling and the softness of the metal. A really beautiful piece.

The Halliday Medal has long been recognized as one of the rarest and most desirable Washington items. Such famous collections as the McCoy and Mickley, otherwise rich in Washington, lacked this piece in any metal. We would say that the Bronze specimen is Very Rare, the Tin of Extreme Rarity and an impression in Silver, all but Unique. The above lot, No. 327, is well worth \$25.00, and can be considered a buy at that figure.

- 328 THE HERO OF FREEDOM. Obv. Bust in civil dress to right. Rev. Inscription in wreath. "THE HERO OF FREEDOM, THE PRIDE OF HIS COUNTRY, etc." Size 24. R. No. 24, B. 79. Struck in Bronze, but Fire Gilt which gives the piece a superb gold surface. Unlisted so in Baker, who only recognizes the piece in Silver and Bronze. May be the identical piece sold in the McCoy Sale, May 1864, lot No. 2381, where it brought \$17.50 and was described as an exceedingly rare funeral medal. This specimen, like the McCoy lot, is a splendid proof. V. Rare and desirable.
- 329 THE HERO OF FREEDOM. As last, from the identical dies. Size 24. Bronze, as published. R. No. 24, B. 79. Very Fine. Hardly as desirable or rare as last, but still a nice piece.
- 330 THE WESTWOOD MEDAL. Second Reverse. Obv. Odd bust in civil dress to right. WESTWOOD F. on edge of shoulder. Rev. Inscription in wreath. This die can be readily identified by the period after PEOPLE and below 68. Known only in Bronze, as this piece is. Size 25. R. No. 26, B. No. 81. Uncirculated, with the most minute edge imperfection upon the obverse.
- 331 THE FAME MEDAL 1803. Obv. Aged bust in civil dress, resembling The Hero of Freedom, to the right. Rev. Fame flying over land and sea. Size 24. Bronze. R. No. 27, B. No. 84. Ex. Fine. Very Rare. A beautiful and popular medal.
- 332 THE FAME MEDAL 1803. As last, from the identical dies. Size 24. R. No. 27, B. No. 84. Struck in TIN and as such unlisted in Baker. A proof impression with the slightest surface impairment due to dirty or rusty dies. Of the most excessive rarity. **Plate I.**

While the Fame Medal is quite rare in itself, we can find no record of a specimen struck in Tin. Such famous and fine collections of Washington material as McCoy, Mickley, Holland, Bushnell and Wilson did not possess a piece in Tin. It undoubtedly is as rare so, as any other Washington Medal.

- 333 THE VOLTAIRE MEDAL. Obv. Bare head to right. Rev. Military trophy. Inscription in French. Struck in Paris by order of Voltaire in 1778. The portrait does not bear the slightest resemblance to Washington. Size 25. R. No. 29, B. No. 78. Bronze. Struck on planchets of different thickness. Ex. Fine. 2 Pcs.

W. E. Woodward claimed that the portrait on the Voltaire medal is that of one Bentham, whoever that may be. A specimen sold in the McCoy Sale, May 1864, for \$17.00. Another sold in the Mickley Collection, Oct. 1867, for \$8.00. While not the great rarity often claimed, the Voltaire medal is of exceptional interest and historical value. It puts to shame current coins of which hundreds of thousands or even millions were made, all exactly the same, and for perfect specimens of which Collectors pay ridiculous prices.

- 334 WASHINGTON BENEVOLENT SOCIETY, NEW YORK 1808. Obv. Liberty placing wreath upon bust of Washington which is mounted on a pedestal. Rev. The Good Samaritan. Size 27. Silver, as all are. R. No. 30, B. No. 327. A splendid toned Proof. Holed as always. Worth \$10.00 at least.
- The dies for this beautiful and exquisite piece were cut by John Reich, whose initial appears on both sides of the piece. While a decidedly striking example of early Americana, it is not very rare, yet a specimen sold in the McCoy Sale for \$26.00, during the peak of a craze for Washington items.
- 335 CENTENNIAL MEDAL 1832. Obv. Undraped bust upon an oval medallion, background of eagle and ribbons. Rev. Inscription in eleven lines. Size 20. R. 38, B. 160. Splendid impressions in Bronze and Tin. The latter showing impairment of the dies and struck on a thick planchet. About perfect. 2 Pcs.
- 336 CABINET MEDAL. Mint series. Obv. Undraped bust facing the right. Beneath, PAQUET F. View of an upright case containing the Mint collection of Washington medals. WASHINGTON CABINET OF MEDALS, U.S. MINT. Size 38. B. No. 326. A large, impressive medal, struck in Silver. Proof, somewhat toned and not in full brilliancy. Not in the celebrated Wilson sale. Rare in Silver.
- 337 INAUGURATION CENTENNIAL 1889. Obv. Head left, by C. C. Wright. Rev. Chain of 13 links, stars around border, one for each state. Size 34. Extremely similar to the Unique Bushnell Medals by Wright. Unlisted in Baker as his work was published in 1885. A specimen in the Wilson sale, Nov. 1925, Lot No. 880, struck in lead was called Unique and sold for \$7.50. This splendid piece is in Silver, and is a beautiful proof. While probably not Unique, it is the first that we have seen.
- 338 **EARLY AMERICAN MEDALS.** 1702. Obv. Bust of Queen Anne left. Rev. View of Vigo Harbor; vessels burning inside; ships before the entrance. struck to commemorate the capture and destruction of the French and Spanish fleet by the English at Vigo, Oct. 12, 1702. Size 24. Silver. Betts No. 97. V. Fine. Rare.
- 339 1766. WILLIAM PITT. Obv. Bust of Pitt to left. Rev. THE MAN WHO HAVING SAVED THE PARENT PLEADED WITH SUCCESS FOR HER CHILDREN. Size 26. Original in Silver. B. No. 515. Extremely Fine with a minor edge abrasion. Very Rare.
- 340 1766. WILLIAM PITT. As last, from the identical dies. Size 26. B. No. 515. Tin. Another, from similar dies, Bronze. Very Fine, first has two minor nicks. Originals. V. Scarce.
- 341 1766. WILLIAM PITT. As last, but T. PINGO F. beneath bust. Different dies. Size 26. B. No. 516. Copper and Brass, Thick Planchets, Restrikes. Proof. 2 Pcs.
- 342 1781. BATTLE OF DOGGERSBANK. Obv. Exquisite figure of Victory standing on the prow of a galley. Rev. In center, within wreath, EXIMIAE VIRTVTIS PRAEMIUM. (The reward of distinguished valor.) Silver. Oval. Size 24x18. B. No. 585. Presented to the Officers who participated in the Battle of the Doggersbank. Sold in the Bushnell Sale, 1882, lot No. 305, for \$15.50. Very Fine. V. Rare.
- 343 1781. BATTLE OF DOGGERSBANK. Obv. Holland standing together with the Batavian Lion. Rev. TO THE IMMORTAL DEFENDERS OF THE GLORY OF THE NETHERLANDS. Size 29. Large Silver Medal of great beauty. Proof.
- 344 1781. LIBERTAS AMERICANA. (American Liberty.) Obv. Beautiful head of Liberty and cap. 4 JUL. 1776... Rev. The infant Hercules (U. S.) and Minerva. (France) Size 30. Bronze. Original. It is this medal that inspired the wonderful design of the Large Cents, 1794 through 1796. Ex. Fine. A must for the L. Cent Collector.
- 345 1776. DIPLOMATIC MEDAL. Obv. America seated amid bales of goods, Mercury before her. TO PEACE AND COMMERCE. Rev. Arms of the U.S. Originally struck by order of Thomas Jefferson in 1790. This is the Mint copy. The original is Ex. Rare or Unique. Size 43. Bronze. A large, attractive piece. Now rare.

- 346 INDIAN PEACE MEDAL. 1801. THOMAS JEFFERSON. Obv. Bust I. Rev. Clapsed Hands. PEACE AND FRIENDSHIP. The largest struck size of these medals, 77mm. Bronze. An identical piece is in the collection of the A.N.S., pierced for suspension together with the original throng. A very early impression. Proof. Rare.
- 347 BRYAN DOLLAR. Obv. A GOVERNMENT DOLLAR CONTAINS, etc. Rev. Cart-wheel. Gorham Manufacturing Company. Large (52mm), beautiful specimen. Uncirculated, except for minor reverse edge nick. Not rare, but very desirable.

CHOICE EARLY QUARTER DOLLARS

- 474 1804. Browning No. 1. Barely circulated. Exhibits the usual characteristics of this date in that the flan shows a deficiency at the right obverse edge and light file marks can be seen above the head. A beautifully toned coin struck on a broad wide planchet. The minute indications at handling displayed by this piece do not detract from its impressive appearance and the fact that it is probably the most difficult early Quarter Dollar to obtain in choice preservation. From the V. M. Brand Coll. ex. Rare. **Plate I.**

Only 6,738 Quarters were struck in 1804. About three or four specimens are known today in mint state. Such famous collections as the Ten Eyck and Dunham did not have this coin in better condition than Fine or Very Fine. An Uncirculated specimen realized \$250 in the Higgy Collection and was considered a bargain at that price. In the recent Menjou sale, a specimen about the equal of this one realized \$232.50. Bought as Uncirculated, this coin is still one of the half dozen finest known.

- 475 1806. UNLISTED variety, not in Browning. A strongly struck, brilliant coin, showing the absolute barest indications of handling. It is obvious that this piece never actually saw circulation. A decidedly rare variety in a state of preservation that is hardly equaled. Worth \$50.00 today.
- 476 1807. Browning No. 1a. The famous and UNIQUE specimen of this date with a PLAIN EDGE. Toned Uncirculated, weakly struck in the center and about the border. The garden variety 1807 Quarter in this condition is almost impossible to locate. Of the greatest rarity and interest. Worth \$250.00 today. **Plate I.**

This coin originally appeared in one of Lyman Low's sales, many years ago, and realized, at that time, over \$100.00. Later it appeared in the U. S. Coin Co. sale on May 20, 1915. For many years it was in the famous Hillyer Ryder collection. The opportunity of owning this UNIQUE variety in the finest preservation may never again present itself.

- 477 1815. Browning No. 1. A strong, sharp impression. Extremely Fine. This date is also difficult to obtain in nice condition. While today it lists at \$35.00 in Uncirculated, \$20.00 was paid for this specimen a number of years ago.
- 478 1818. Browning No. 1. A rare variety in choice uncirculated condition. Perfectly centered and superbly struck. The reverse shows a decided break through the center. A splendid example of this date in magnificent condition. From the celebrated Earle sale, June 29, 1912, lot No. 3046.

- 479 1819. Browning No. 3. The interesting variety with a double cut 5 in, and a colon following, 25 c. Small 9 in date. Strictly Very Fine, beautifully toned. Cost \$8.00.
- 480 1822. Browning No. 1. The 2 in 25 c. appears to be cut over some other figure and is not mentioned so in Browning. Extremely Fine and really rare in this condition. From the Malcom Jackson sale, May 21, 1913, lot No. 876.
- 481 1824. Browning No. 1. Very Fine or better. Bought in Elder's sale, Feb. 9, 1923, lot No. 1504, as Uncirculated. In any event, it is a nice coin and extremely difficult to find choice. Today it lists at \$50.00 Uncirculated. This piece should realize at least \$25.00.
- 482 1841. With drapery. Uncirculated, mostly brilliant, with a proof surface. The head is somewhat weakly struck. Catalogs at \$25.00. From the renowned W. Woodin sale, Elder's 48th, March 2, 1911, lot No. 436. V. Rare in this condition.
- 483 1842. Large date. Uncirculated, considerable proof surface. Lists \$10.00. Bought from W. Hesslein, Oct. 18, 1911.
- 484 1848. A GENUINE PROOF. Beautifully toned, not quite in full brilliancy. Of the greatest rarity in this condition. Similar specimens have sold as high as \$50.00.
- 485 **HALF DOLLARS.** 1803. Large 3. V. Fine or better. Considerable lustre. Worth \$10.00 so.
- 486 — 1805. Close date. Strictly Very Fine. Worth \$7.50 so.

The Three Cent Nickel series was very popular during the war years, but lately, it has lost some of its popularity. We predict a steady growth of interest in this series as more and more collectors realize the great difficulty of obtaining various dates and the rarity of others in clean choice condition. The 1887 is among the first dates to be recognized and dealers are advertising to pay \$11.00 for Proof specimens.

- 550 Die strike from a pattern die from which no known patterns were ever struck. This piece bears an impression of the bust by Longacre commonly found upon the series of pattern half dollars dated 1859. Evidently, from the size of the impression, this strike was made to test the basic appearance of a pattern dime. Struck from an unknown die on a pure copper planchet. Rev. uniface. Unc. UNIQUE or Ex. Rare. **Plate I.**
- 551 Die strike from a pattern one cent hub from which no known patterns were ever taken. It is believed it was intended for the reverse of a one cent piece dated 1867 and as a mate to the five cent pattern A.W. 618 dated the same year. A six-pointed star above a wreath which encloses the Roman numeral I. Struck from a rusty hub on a pure copper planchet. Rev. uniface. Unc. UNIQUE or Ex. Rare. **Plate I.**
- 552 Die strike from Morgan's Goloid Metric design showing the bust only struck on an extremely thin copper planchet. This design was used for a pattern dollar struck in 1879 as well as for government heroism medals. Rev. uniface except for the words "Metric Dollar" scratched lightly. Unusual, undoubtedly rare. **Plate I.**
- 553 Hub impression from what appears to be the central design for some unknown reverse of a U.S. pattern. Struck on a heavy bronze planchet. Fine. Undoubtedly rare.

- 558 1794. Hays 4. S. 17. The head of 1793. Strictly Good. Dark brown. Con. 5. Not a bad example of this, one of the most difficult early cents to find in decent condition. A very rare variety. Con. 5. Worth \$37.50.
- 559 1794. Hays 5. S. 21. The flat pole variety. Strictly Fine and a very nice coin except for a planchet chip almost at the point of the bust. Lustrous brown color. Con. 15. Worth \$18.75.

- 560 1794. Hays 6. S. 47. The young head variety. Very Good. A really unimportant reverse edge bruise. Con. 8. Worth \$24.00.
- 561 1794. Hays 7. S. 49. The closed wreath variety. Strictly Very Good. Has a dark green surface. Con. 10. Worth \$12.50.
- 562 1794. Hays 8. S. 48. The very famous starred reverse variety in which there are 94 minute stars just inside the reverse border. Only Very Fair, but the obverse seems to have slight claims to Good. Rare and very popular. Con. 3. Worth \$25.50.
- 563 1794. Hays 10. S. 51. Short bust and long locks variety. This is a nice cent which can be called strictly Fine. The obverse is particularly sharp. Attractive and rare. Con. 12. Worth \$36.00.
- 564 1794. Hays 11. S. 54. The crooked 7 variety. Fine to Very Fine. A really attractive specimen of a decidedly scarce cent. Better than Con. 15. Worth \$25.00.
- 565 1794. Hays 12. S. 56. The office boy reverse. Strictly Fine, but has several light edge bruises on both sides. A sharp cent and not nearly as bad as it sounds. Con. 10. Worth \$20.00.
- 566 1794. Hays 13. S. 55. The big berries variety. Fine and would be top-flight except for two obverse edge bruises. Dark brown color. Con. 12. Worth \$18.00.
- 567 1794. Hays 14. S. 57. The famous Pyramidal head variety. Would be Fine, but has three digs, two on the obverse and one on the reverse. A sharp cent. Con. 7. Worth \$7.00 so.
- 568 1794. Hays 15. S. 59. The variety with the left ribbon bow double cut. Could almost be called V. Good except for a obverse defect and a reverse edge bruise. Sharp, and as usual with these coins, not as bad as it sounds. Con. 5. Worth \$10.00.
- 569 1794. Hays 16. S. 58. The many haired variety. Could almost be called Very Good. Fairly sharp, the reverse particularly so. Con. 7. Worth \$14.00.
- 570 1794. Hays 17. S. 17. The scarred head variety. Strictly Very Good and except for the weak reverse would be a Fine cent. The obverse is particularly sharp. Con. 10. Worth \$12.50.
- 571 1794. Hays 18. S. 23. The standless 4 variety. Strictly Fine but has a somewhat rough surface. Extremely difficult to find in anything approaching decent condition. Con. 10. Worth \$30.00.
- 572 1794. Hays 19. S. 41. The abrupt hair variety. Would almost be a Fine to V. Fine cent, but the obverse has a few nicks. The reverse with its breaks is particularly nice. Con. 12. Worth \$24.00.
- 573 1794. Hays 20. S. 42. The variety with truncated hair locks and OF weak. A really nice, clean sharp cent. Fine to Very Fine. This piece which is rare in any condition and decidedly rare in decent shape is better than Con. 15. Worth \$50.00. A piece in equal or somewhat superior condition sold for \$85 in 1944.
- 574 1794. Hays 21. S. 26. The separated date variety. Strictly Very Good, but the reverse has a few really insignificant defects. Con. 8. Worth \$10.00.
- 575 1794. Hays 22. S. 25. Another separated date variety. This piece is almost a mate for the last. Very Good. Con. 8. Worth \$12.00.
- 576 1794. Hays 23. S. 28. The ornate variety. The obverse of this cent could easily be called Very Fine. The reverse however, is not as nice particularly as it has a cut or crack in the center together with a few light scratches. Altogether, it is a nice penny. Nice dark brown color. Con. 15. Worth \$22.50.
- 577 1794. Hays 24. S. 29. The tailed reverse. A Very Good cent with the customary edge bruise, this time on the obverse. Con. 8. Worth \$10.00.
- 578 1794. Hays 25. S. 27. The buckled obverse. This is a Good coin and the way a Good coin should look. Outside of the most minute defects, the coin is clean with just nice, even wear. Actually Very Rare. Con. 5. Worth \$20.00.
- 579 1794. Hays 26. S. 32. The Venus Marina die. Strictly Very Good and sharp, but has a defect in the first O of the fraction. Con. 7. Worth \$7.00 or so.

- 580 1794. Hays 28. S. 34. The variety with a single berry left of bow, together with a break over Ll. As usual in connection with very rare coins, this piece is not top grade. Normally it would be called Very Good to Fine if the defects were discounted. Both sides of the coin show, here and there, evidence of corrosion. The obverse edge and the reverse field boast of two small bruises and one light cut respectively. Extremely rare and in Con. 7. Worth \$50.00.
- 581 1794. Hays 32. S. 63. The fallen 4 variety. Offhand this coin looks Good to V. Good, but some artist has masterfully attempted to improve the obverse. We'll call it Con. 4. Worth \$5.00.
- 582 1794. Hays 33. S. 44. The short bust variety. Strictly Very Fine and a beautiful cent. The surface is a nice brown color, fairly uniform on both sides. Difficult to locate in this condition. Con. 25. Worth \$32.50.
- 583 1794. Hays 34. S. 43. Another example of the short bust variety. Very Good with a dead, somewhat roughened surface. Not as bad as it sounds, but a Con. 6. Worth \$7.50.
- 584 1794. Hays 35. S. 60. The square forelock variety. Very Good with a few minor defects. The obverse field displays two really small and old nicks. Not a bad cent. Con. 8. Worth \$16.00.
- 585 1794. Hays 37. S. 30. The marred field. Good, and not too bad. Con. 5. Worth \$5.00.
- 586 1794. Hays 39. S. 31. Another example of the marred field. Strictly Very Good with a light obverse edge bruise. A nice, clean appearing penny. Con. 8. Worth \$10.00.
- 587 1794. Hays 41. S. 38. The third marred field variety. Fine, but has two obverse edge bruises one of which is along the left edge. Con. 7. Worth \$20.00.
- 588 1794. Hays 43. S. 22. The bent hair lock variety. Strictly Very Fine and a nice light brown color. The planchet shows light granulation at the bottom of the obverse. A really nice cent in the original Chapman box. Con. 30. Worth \$30.00.
- 589 1794. Hays 45. S. 65. The shielded hair variety. Very Fine and a dark brown color, almost the equal of the last. A nice cent. Con. 30. Worth \$30.00.
- 590 1794. Hays 45. As last. The reverse is badly broken. V. Good. Con. 8. Worth \$8.00.
- 591 1794. Hays 46. S. 64. Another variety named by Maris "The shielded hair." The obverse is V. Good and the reverse only about fair. Con. 4. Worth \$12.00.
- 592 1794. Hays 47. S. 45. The Plicae variety. Strictly Very Good with some claims to Fine. However, the edges seemed bruised somewhat. On the other hand this very rare variety has a nice brown surface. Con. 8. Worth \$24.00.
- 593 1794. Hays 49. S. 62. The trephined head. Could be called Fine, but the obverse has an edge cut and the surface is scratched somewhat on both sides. Not as bad as it sounds and actually rare. Con. 7. Worth \$17.50.
- 594 1794. Hays 50. S. 69. Variety with five braided locks and a small circular curl. A coin with claims to Fine but with a few minor defects. We'll call it Con. 8. Worth \$16.00.
- 595 1794. Hays 51. S. 70. Similar variety to last. Strictly Very Good and a fairly clean cent. Not rare, but satisfactory. Con. 10. Worth \$12.50.
- 596 1794. Hays 52. S. 71. Very similar to last. The condition is strictly Good, the obverse being particularly sharp. Parts of the reverse are a bit weak and the rim is lightly bruised at bottom. Con. 6. Worth \$7.50.
- 597 1794. Hays 54. S. 67. Like the last three varieties, this one can properly be called the head of 1795. Strictly a Fine cent with a few minor defects. Attractive olive color and in the original Chapman box. Con. 15. Worth \$22.50.
- 598 1794. Hays 55. S. 68. The head of 1795. Can be called Good, but the reverse is bruised twice and the surface is hardly desirable. Rare, however, and we'll call it Con. 3. Worth \$12.00.
- 599 1794. Hays 56. S. 72. The exact head of 1795. Strictly Very Good, but the coin has three edge bruises and the obverse field displays two corrosion spots. Still sharp and acceptable. Con. 6. Worth \$7.50.

The above listed collection of 44 1794 Cents represents one of Mr. Wismer's earliest numismatic interests. While lacking a large number of coins in spectacular preservation, it does offer a number of rare varieties that seldom appear in any condition. We have taken special pains to accurately describe these cents and have based our valuations upon Dr. Sheldon's system.

- 600 1795. Lettered edge variety. S. 74. Doughty 68. A strictly Good coin. In great demand. Con. 5. Worth \$15.00.
- 601 1795. Plain edge. ONE CENT high in wreath. S. 76. D. 66. Strictly Fine and sharp. Con. 15. Worth \$11.50.
- 602 1796. Draped bust type. S. 99. Gilbert 38. A sharp, Fine example of this very rare variety. The surface is brown turning to steel, but the obverse shows a little light corrosion about the bust. This is one cent that looks far better than any description would indicate. Sheldon mentions only knowing of nine or ten examples in all. Con. 12. Worth \$50.00.
- 603 1796. Liberty cap type. S. 91. G-F. Strictly Very Good. Even wear. Con. 8. Worth \$22.00.
- 604 1797. Stems to wreath. S. 138. D. 103. This cent would undoubtedly pass for Very Fine, but we will call it Fine because someone has cleaned and lacquered the obverse. A nice cent. Con. 15. Worth \$18.75.
- 605 1798. S. 187. Clapp 47. An attractive cent with claims better than Fine, but because of a few obverse defects, it will be graded Con. 15. Worth \$8.00.
- 606 1800. S. 199. D. 149. Strictly Very Good. Nice brown surface. Con. 8. Worth \$14.00.
- 607 1801. The famous three errors variety. One stem to wreath, fraction 1/000 and UNITED. S. 219. D. 156. A sharp, strictly fine example of this popular cent. Con. 12. Worth \$30.00.
- 608 1802. Fraction 1/000. S. 228. D. 164. Just about Fine, but has a small nick on the reverse. Con. 10. Worth \$7.50.

- 613 1805. S. 269. D. 201. Also, 1806. S. 270. D. 202. Good & V. Good. Cons. 4 & 7. Worth about \$10.00. 2 Pcs.

D. C. WISMER — 1857-1949

Prior to offering a number of notes from his extensive collection, it seems particularly appropriate to say a few words here about a genial collector who was often referred to as the "Dean of American Numismatists."

D. C. Wismer became interested in the early paper money of our country shortly before the turn of the present century. Within a very few years he was recognized as the foremost authority on obsolete currency and retained this reputation until his death in 1949.

Mr. Wismer was an Honorary Member of the American Numismatic Association and made an outstanding contribution to numismatics in the publication of his "Descriptive List of Obsolete Paper Money" which appeared in the Numismatist from 1922 to 1936. Sections of this list were reprinted and are often available as the only standard works on the notes of New York, New Jersey, Ohio and Pennsylvania.

Several of the items offered herewith are the result of nearly fifty years of studious effort and meticulous collecting. It is believed that many of these notes have never been offered previously and we doubt if a number of them can even be duplicated.

In this connection, the following information may prove to be of value.

OBSOLETE PAPER MONEY

Obsolete Bank and comparable bills were a standard medium of exchange in the United States from the period immediately following the revolution to about the end of the Civil War. Thousands upon thousands of Banks, and similar institutions, issued notes. Many Banks failed, hence the term "Broken Bank Bills." Others made an honest attempt to redeem their paper and still others survived to become nationalized in 1865.

Many obsolete notes are quite common, while others are of the greatest rarity.

"Proof" or specimen notes are those issued in very limited quantities by the manufacturer to serve, more or less, as samples. They were submitted to the officials of Banks, contemplating a

regular issue of notes, as examples of suggested designs. Generally, they are found upon very thin paper which would take the best impression from the engraver's plate. Often they were mounted at the time of delivery to facilitate handling. They are the rarest and most beautiful examples of obsolete currency. All are rare, many extremely so or unique.

Some issues of Bank notes are found unnumbered and unsigned. Usually, such notes are part of a hoard discovered many years after a bank failed, and quite often are not particularly rare. All of the notes intended for circulation were signed, numbered and usually bore either a written or engraved date.

The vignettes appearing upon these notes were done by the best artists of the period and are often genuine works of art. Early views of American life, portraits of famous men and other ornamentations adorn these interesting old bills.

We highly recommend renewed interest in this somewhat neglected field. Students and interested collectors are invited to correspond with us.

MISCELLANEOUS RARE ITEMS FROM ODD CONSIGNORS

- 778 **MARK NEWBY FARTHING.** Authorized for use in colonial New Jersey in May, 1682. Obv. FLOREAT : REX : , Rev. QVIESCAT PLEBS. The famous St. Patrick's piece struck in **SILVER.** Struck on a larger planchet than usually found and we believe it to be a trial piece for a Shilling. The regular variety 'lists at \$125. in the "Guidebook." Very Fine. Ex. Rare. **Plate I.**
- 779 **CONNECTICUT CENT.** 1786. Draped bust left. The only 1786 die with the starred obverse—AUCTORI : * * CONNEC : *. Miller 7-K. Rarity 6. This specimen which is almost Ex. Fine has the full date and is far superior to the piece illustrated on Pl. II of Miller-Ryder or the one on page 9 of the Standard Catalog. Steel color. Probably the finest known specimen of one of the rarest Connecticut Cents. If a Large Cent, this coin would be in the \$150. class.
- 780 **IMMUNE COLUMBIA CENT.** 1785. Liberty seated on a box facing right. Rev. NOVA • CONSTELLATIO *. Copper. Wgt. 148.6 Grains. See Crosby, figure 54, page 312, and plate VII, No. 30. Very Fine, slightest defects. A beautiful medium brown color. Lists at \$200. in Fine condition and about equal to lot No. 197 in the celebrated Parsons collection, 1914, which realized \$250.00. Ex. Rare. **Plate I.**
- 781 **HALF DISME.** 1792. One of the earliest mint issues and said to have been struck from plate furnished the mint by Washington. Strictly Ex. Fine. As

perfect an impression of this rare and popular coin as we have seen and far superior to the specimen offered in our January sale. Well worth every penny of \$150. or more. V. Rare. **Plate I.**

- 782 **LARGE CENTS.** 1813. Sheldon 292. D-222. By far the scarcest 1813 Cent and extremely difficult to find in nice condition. Better than V. Fine, perhaps Ex. Fine with a very slight roughness to the surface. Dark brown. Condition 30. This is lot No. 484 from the Newcomb coll. where it was called Unc.
- 783 — 1814. Sheldon 294. D-224. Abt. Uncirculated. Red and Brown. Condition 50. Lot No. 486 from the Newcomb coll.

- 784 **THE RARE "MOTTO" HALF DOLLARS.** 1863. Pattern Half Dollar. Regular dies, but with motto "IN GOD WE TRUST" upon the reverse as adopted in 1866. Silver. A.W. 371. R. 12. Superbly struck toned Proof. Ex. Rare. **Plate I.**

The motto "In God we Trust" was originally adapted by Secretary of the Treasury Chase from a suggestion by the Rev. M. R. Watkinson, Ridleyville, Pa. Records for this pattern coin, one of the first to bear the corrected motto, are very slim and we can find none prior to the 1950 Curtis list. It is not to be confused with the much more common "God our Trust" patterns. We doubt if more than a very few are known and feel this piece is well worth \$100.00.

- 785 — 1864. Pattern Half Dollar. As last. Regular dies, but with motto as finally adopted in 1866. Silver. A.W. 436. R. 12. A perfect mate in appearance to the last. Ex. Rare. **Plate I.**

As rare as the last with records not quite as high. An opportunity to acquire these splendid coins may not again present itself for many years. Worth at least \$85.00 today.

- 786 **GEORGE IV SPECIMEN CASE** (Great Britain). Original leather case inscribed GEORGE IV and crown. Contains the largest silver and gold coins of this monarch who reigned 1820-30. 1826. Five Sovereigns. Obv. Head of the King I. By W. Wyon after a medallion by Sir Francis Chantry. Rev. Arms on a crowned mantle. BRITANNIARUM REX FID: DEF: . By Merlen. Edge letter, DECUS, etc. **Plate II.** 1821 and 1822. Crowns. Head left, laureate. Rev. St. George and the Dragon. B.P. on both Obv. and Rev. for B. Pistrucci. Edges lettered, DECUS, etc. Brilliant Proof and toned Proofs. A magnificent set of coins, not intended for circulation, and worthy of a home in the finest collection. Should bring a good price. 3 Pcs.

- 787 **LARGE GOLD LONGFELLOW MEDAL.** Obv. Massive, kindly bust facing three-quarters left, surrounded by a wreath and bordered by the dates, 1807-1907. B. L. PRATT SEPT. 07 below. Rev. Within a similar wreath, HENRY WADSWORTH LONGFELLOW — POET — BORN IN PORTLAND MAINE FEBRUARY 27 - 1807 DIED IN CAMBRIDGE MASSACHUSETTS MARCH 24 - 1882. Edge plain except for a few infinitesimal test marks and the words TIFFANY & Co. Weight 130.5 Dwt. Struck by a unique process which gives the piece a matte surface together with a reddish purple sheen. Only two said to be struck. From the J. P. Morgan Coll. **Plate II.**

Bela Lyon Pratt was one of the designers of the \$2½ and \$5 "Incused Indian Head" Gold coins first struck in 1908. He was better known as a sculptor than as a designer of coins and medals. At one time he studied under Augustus St. Gaudens. He died in May, 1917.

- 788 **RARE CUT SHEETS OF U. S. CURRENCY.** LEGAL TENDER NOTES. \$5. 1880. Rosecrans & Jordan. Large red seal. Serial numbers A7034205 to A7034208. These signers were together in office less than two years. Four notes. Crisp Unc. A slip accompanying this lot states that only two other sheets similar to this exist. As these notes list at \$25.00 each, the sheet should be worth in excess of \$100. 4 Pcs.
- 789 — \$10. 1901. Lyon & Roberts. Small red (scalloped) seal. Serial numbers 20214105 to 20214108. Four notes. A reconstructed sheet pasted together with thin strips of white paper. Ex. Fine. List at \$22.50 each, separately. 4 Pcs.
- 790 — \$5. 1907. Napier & McClung. Small red seal. Serial numbers B50526165 to B50526168. Four notes. A reconstructed sheet as last. Ex. Fine. Very difficult to find so. 4 Pcs.
- 791 **NATIONAL BANK NOTES.** \$1. A-B-C. \$2. A. Oct. 25, 1875. Stamped Series of 1875. Allison & New. Red scalloped seal. THE HOME NATIONAL BANK OF MILFORD, MASS. All from the same sheet—A670064 and 5160. A reconstructed sheet of four notes. While purchased as Uncirculated we would call this sheet only Ex. Fine. Said to be from the famed Grinnell collection. Today, a sheet of this rarity is well worth over \$100.00. 4 Pcs.

- 792 — An impression of the reverse of a \$10. National Bank Note, First Charter Period on very thin paper. Appears to be a specimen or proof. The central vignette portrays De Soto's discovery of the Mississippi. The green ink varies somewhat in shade. Uncirculated, but cut close and very slightly torn at the extreme edges. V. Rare, the first we have seen.
